

Driver Safety

Entrance ramps:

- Adjust your speed to the speed of the traffic before merging.
- Turn on your turn signal.
- Merge cautiously, without forcing your way into traffic.
- Turn off your turn signal as soon as you have completed your merge.

Exit ramps:

- Pre-plan and know where your exits are ahead of time.
- Turn your signal on at least 100 feet ahead of the ramp.
- Begin to adjust your speed before entering the ramp.
- Heed all warning signs.
- Obey all posted speed limits.

Consider and account for weather, load, visibility, and road conditions when on entrance and exit ramps.
