

Shoulder Stops

Objective: To provide safe procedures for stopping on the side of the road, as well as for re-entering traffic

Only stop on road shoulders **in the event of an emergency.**

Parking Guidelines

- Choose a straight, level, and visible area.
- Decelerate as you approach.
- Use your turn signals or hazard signals.
- Subtle changes in a driver's perception can be extremely dangerous: slight drowsiness, dizziness, or visual impairment may go unnoticed, and drivers may believe that they are able to drive when they should not.

Staying Safe Off the Road

- Check the vehicle's position and pavement conditions before exiting the vehicle.
- Stay visible.
- Keep **five feet** of distance from the road.
- Allow sufficient time and distance when merging back with traffic, and remember your turn signal.

Shoulder Stops
